- **Captained Kabaddi, Football, and Cricket Teams:** Led multiple teams to achieve consistent performance throughout the season, winning several tournaments. Cultivated a culture of discipline within the team, reducing disciplinary actions by 50% compared to the previous season.

EXPERIENCE

Fresher

- Gained hands-on experience during training sessions at Tops Technologies.
- Built multiple small-scale projects focused on user interface development using Flutter.

PROJECTS

Instagram Clone

- **Status:** Under Development
- **Technologies:** Firebase, Dart, API Integration
- **Description:** The aim is to create an app as close to Instagram as possible. It uses Firebase for cloud storage, Dart for logic, and Flutter for UI creation.

Chat Application

- **Status:** Completed
- **Technologies:** Firebase, Dart, Flutter SDK
- **Description:** An application that uses Firebase for storage and authentication, Flutter for building the UI, and Dart for logic building.

Book My Event

- **Status:** Completed
- **Technologies:** API Integration, Flutter SDK, Dart
- **Description:** A practice application for fetching APIs from different sources, which displays fetched data in a user interface.

Task Management App

- **Status:** Completed
- **Technologies:** SQLite, Dart, Flutter SDK
- **Description:** An offline application for managing tasks by priority and sorting them by time and date. It uses SQLite for offline storage.

Travel App

- **Status:** Completed
- **Technologies:** Dart, Flutter SDK
- **Description:** A practice application focusing on UI development using Flutter's rich libraries and widgets.
